In the name of Allah, the Most Merciful, the Most Compassionate.

Seventeen years have passed since invasion of the blessed land of Afghanistan by America and the toppling of the legitimate Islamic government. In response to this invasion, Jihad them and consequently, as a result of huge sacrifices of our nation; the invading forces are compelled to accept defeat in the war and leave the Islamic country of Afghanistan.

But, yet frustrated infidels have resorted to other conspiracies to silence the voice of pious and freedom-loving nation and thus spoil our enormous sacrifices.
On March 18, 2018, the commander of American invading forces, General John Nicholson press conference that US has a plan to apply different pressures on Taliban this year. He a combination of religious, social, diplomatic and military pressure will be applied on the Tal pressure means that conferences under the name of religious scholars from Afghanistan, other Islamic countries will be held and they will issue a Fatwa (Islamic verdict) against the conferences to undermine legitimacy of their struggle from a religious perspective.

In this series, according to the US plan, first gathering of religious scholars was convened Indonesia on 11 May of the current year. They were considering similar conferences to be Islamabad and Saudi Arabia after this conference.

The Islamic Emirate of Afghanistan considers this process under the title of conferences of Scholars as an absolute anti-Islamic US process whereas its idea, logistical support and in directly led by the US itself. The US wants through these conferences to find justification for occupation, legitimize their stooge Kabul Administration and thus weaken the Jihadic resis Muslim nation being put up against them.

But, Americans and their allies should understand that as they have failed in fighting, poli the field of propaganda, likewise, Allah, the Almighty will stymie this scheme of invaders and Almighty says:

١٨٨

They seek to extinguish the light of Allah with their mouths; but Allah will complete His li disbelievers may dislike it (Chapter 61, Verse: 8)

The Islamic Emirate urges religious scholars to reject these conferences which are a sche invaders. We wish to convey to those scholars who might argue that they are participating gatherings to speak the truth and defend the cause of Mujahideen, that even if you will such conferences, the final declaration, propaganda and media are in the hands of the in distort your assertions and utilize it for their own interests. As you have witnessed that ra opinions of some religious scholars were omitted by the media, and to humiliate the scho propagated that dollars were distributed to the participants of the conference in specific e

Similarly, as you witnessed in the Kabul conference that some scholars were invited and t statement was announced under the name of Fatwa and was labeled as the agreed upon scholars. As far as we have followed the process of these conferences and studied their d Fatwa is not Sharia–based and holds no rational argument to de-legitimize the current law spokes generally about moral values, criticized civilian casualties in the fighting and place Mujahideen for killing innocent civilians, children and women. We wish to make is clear th jihad is not to kill innocent people. We are expending our utmost efforts to avoid civilian c Jihadic attacks. For this reason, we have established a separate commission for the preve casualties. Our hot line number is active and we have punished our Mujahideen in cases of these are the reciprocal effects of a war that civilian casualties will happen. Sometimes c killed unintentionally by the companions of the Prophet Muhammad (peace be upon him) Religious scholars have never rejected legitimate Jihad because of unintentional civilian c

Secondly, the argument put forward during these conferences to de-legitimize the current Jihad can only be declared by the ruling government or a head of a state who is in power no justification in Shariah (Islamic Law). We say, lets deeply study the contemporary hist resistance. During eighteenth and nineteenth centuries, when Islamic world was under oc Spain, France, British, Russia, Holland, Italy and other European countries and from north Caucasus, from central Asia to Middle East and the Indian sub-continent, all Islamic lands European colonialists and the invaders established their tyrant governments in these cou
continued their political, military, ideological and economical occupation until a military re-launched against them in these areas. In fact, no one can deny that this resistance is a great event in our Islamic history. These military resistances against invaders were not declared by any government but such movements were started by the individual efforts of Saeed Ahmad Shaheed, Imam Abdul Qadir Aljazairi, Mullah Mushk Alam, Omar Mukhtar, Izzuddin Qassam, Muhammad Al-Sudani, Ibrahim Baig, Sheikh ul hind Mullahul Mahmood ul Hassan (may Allah be pleased) and other heroes worried who felt the pain of the Muslim Ummah. But after a passage of time resistances turned into national uprisings and forced foreign colonialists to leave the Muslim world.

None of the scholars of the Islamic world have criticized the Jihad of these heroes so far as a scholar called it illegitimate because it was a popular resistance not permitted by a government. Three decades ago, Afghan Mujahideen started Jihad against Soviet Union and all religious scholars of the world defended their resistance whereas Mujahideen had no government at the beginning.

Furthermore, our current Jihad is defensive because infidels have invaded our Muslim land and Jihad is started against them. As far as defensive Jihad is concerned, when infidels attack Muslims then all books of Fiqh (Jurisprudence) say that Jihad becomes obligatory upon every Muslim slave, freeman and upon all Muslims. All should wage Jihad without permission of anyone sinners and have shunned a mandatory obligation. Therefore, there is no need for permission in cases of defensive Jihad.

But even if we suppose that the permission of Jihad has to be announced by a government, even then our Jihad would be legitimate because its verdict was passed during the Islamic Emirate led by Amir-ul-momineen Mullah Muhammad Omar Mujahid. For that reason before American invasion on 21 September 2001, one thousand and five hundred scholars declared that if the Americans were to attack Afghanistan then Jihad against them would become obligatory at the time of this verdict 95% land of Afghanistan was under the control of the Islamic Emirate recognized by multiple countries. So this issue is clear as broad day light that because of retreats from the capital and other big cities of the country do not nullify the Shariah based Islamic government. Therefore as the Islamic Emirate was an Islamic state and government is still an Islamic government and state which controls more areas of Afghanistan as compared to Americans and their stooge Administration.

Therefore all the arguments are irrational and baseless according to Shariah for above evidence. Furthermore, they only blame Mujahideen and do not utter a single word against corrupt invaders nor consider their open brutal aggression as illegitimate hence it clearly shows the service of invaders. Therefore, we want to tell the religious scholars that they should fear this world and the Hereafter about this sensitive issue of considering the rightful Jihad as an illegitimate.

They should know that America is the biggest tyrant of this time which has usurped the rights of Muslims in every corner of the world. They have occupied Baitul Muqaddas, the first Qibla are oppressing Muslims everywhere. You know that the Mujahideen of Afghanistan are not fighting against the enemy with stones and pellets like those of Palestine rather they are fighting against the weapons seized from Americans and their allies as a spoils of war. They are giving crushing blows to Americans with their own weapons and every day, you are witnessing victories of the Mujahideen themselves admit that more than 2500 soldiers have been killed in Afghanistan thousands have been injured and are suffering from mental disorders. So on the basis of impermissible for Muslims especially religious scholars to come to the aid and rescue of the wounded dragon trapped in Afghanistan. Because helping the American tyrant is a grave deviation from Islam, May Allah, the Almighty protect our religious scholars from it.

To end, once again we respectfully urge the religious scholars of Afghanistan and the Muslim world to cooperate and help the Muslim nation and Mujahideen instead of assisting and participating in American aggrandizement.
conferences of the secret service of the enemy so that Allah the Almighty thwarts the plot and reinstates the dignity and independence of Muslim nation.

And this is an easy task for Allah, the Almighty.
