Statement of the Islamic Emirate regarding scheduled conferences under the name of Islamic Scholars

📁 in Statements 🕒 June 26, 2018 👁 345 Views

In the name of Allah, the Most Merciful, the Most Compassionate.

Seventeen years have passed since invasion of the blessed land of Afghanistan by America and the toppling of the legitimate Islamic government. In response to this invasion, Jihad was declared and consequently, as a result of huge sacrifices of our nation; the invading forces were compelled to accept defeat in the war and leave the Islamic country of Afghanistan.

But, yet frustrated infidels have resorted to other conspiracies to silence the voice of independent and freedom-loving nation and thus spoil our enormous sacrifices.

Operations, an
example of
Mujahideen's

steadfastness

🕒 May 13, 2018

On March 18, 2018, the commander of American invading forces, General John Nicholson press conference that US has a plan to apply different pressures on Taliban this year. He said a combination of religious, social, diplomatic and military pressure will be applied on the Taliban. This pressure means that conferences under the name of religious scholars from Afghanistan, other Islamic countries will be held and they will issue a Fatwa (Islamic verdict) against the Taliban. These conferences to undermine legitimacy of their struggle from a religious perspective.

In this series, according to the US plan, first gathering of religious scholars was convened in Indonesia on 11 May of the current year. They were considering similar conferences to be held in Islamabad and Saudi Arabia after this conference.

The Islamic Emirate of Afghanistan considers this process under the title of conferences of religious scholars as an absolute anti-Islamic US process whereas its idea, logistical support and it is directly led by the US itself. The US wants through these conferences to find justification for its occupation, legitimize their stooge Kabul Administration and thus weaken the Jihadic resistance of the Muslim nation being put up against them.

But, Americans and their allies should understand that as they have failed in fighting, politics in the field of propaganda, likewise, Allah, the Almighty will stymie this scheme of invaders. Allah the Almighty says:

اللَّهُ بِأَفْوَاهِهِمْ وَاللَّهُ مَتَمُّ نُورِهِ وَلَوْ كَرِهَ الْكَافِرُونَ.الصف ٨

They seek to extinguish the light of Allah with their mouths; but Allah will complete His light as He wills, and disbelievers may dislike it (Chapter 61, Verse: 8)

The Islamic Emirate urges religious scholars to reject these conferences which are a scheme of the invaders. We wish to convey to those scholars who might argue that they are participating in such gatherings to speak the truth and defend the cause of Mujahideen, that even if you will speak at such conferences, the final declaration, propaganda and media are in the hands of the invaders who will distort your assertions and utilize it for their own interests. As you have witnessed that many of the opinions of some religious scholars were omitted by the media, and to humiliate the scholars, the media propagated that dollars were distributed to the participants of the conference in specific amounts.

Similarly, as you witnessed in the Kabul conference that some scholars were invited and their statements were announced under the name of Fatwa and was labeled as the agreed upon statements of the scholars. As far as we have followed the process of these conferences and studied their final Fatwa is not Sharia-based and holds no rational argument to de-legitimize the current law of the Islamic Emirate. It spoke generally about moral values, criticized civilian casualties in the fighting and placed the blame on Mujahideen for killing innocent civilians, children and women. We wish to make it clear that Jihad is not to kill innocent people. We are expending our utmost efforts to avoid civilian casualties in Jihadic attacks. For this reason, we have established a separate commission for the prevention of civilian casualties. Our hot line number is active and we have punished our Mujahideen in cases where they have caused civilian casualties. These are the reciprocal effects of a war that civilian casualties will happen. Sometimes civilians were killed unintentionally by the companions of the Prophet Muhammad (peace be upon him) and the Prophet himself. Religious scholars have never rejected legitimate Jihad because of unintentional civilian casualties.

Secondly, the argument put forward during these conferences to de-legitimize the current law of the Islamic Emirate can only be declared by the ruling government or a head of a state who is in power and has no justification in Shariah (Islamic Law). We say, let's deeply study the contemporary history of Islamic resistance. During eighteenth and nineteenth centuries, when Islamic world was under occupation by Spain, France, British, Russia, Holland, Italy and other European countries and from north Africa to the Caucasus, from central Asia to Middle East and the Indian sub-continent, all Islamic lands were under the control of European colonialists and the invaders established their tyrant governments in these countries.

continued their political, military, ideological and economical occupation until a military rebellion was launched against them in these areas. In fact, no one can deny that this resistance is a glorious part of our Islamic history. These military resistances against invaders were not declared by any government. All such movements were started by the individual efforts of Saeed Ahmad Shaheed, Imam Saifullah Khan, Abdul Qadir Aljazairi, Mullah Mushk Alam, Omar Mukhtar, Izzuddin Qassam, Muhammad Ahmad, Al-Sudani, Ibrahim Baig, Sheikh ul hind Mulla Mahmood ul Hassan (may Allah be pleased with them) and other heroes worried who felt the pain of the Muslim Ummah. But after a passage of time these resistances turned into national uprisings and forced foreign colonialists to leave the Muslim lands.

None of the scholars of the Islamic world have criticized the Jihad of these heroes so far. No scholar called it illegitimate because it was a popular resistance not permitted by a government. Three decades ago, Afghan Mujahideen started Jihad against Soviet Union and all religious scholars of the world defended their resistance whereas Mujahideen had no government at the beginning.

Furthermore, our current Jihad is defensive because infidels have invaded our Muslim lands. Jihad is started against them. As far as defensive Jihad is concerned, when infidels attack Muslims then all books of Fiqh (Jurisprudence) say that Jihad becomes obligatory upon every free slave, freeman and upon all Muslims. All should wage Jihad without permission of anyone and have shunned a mandatory obligation. Therefore, there is no need for permission in cases of defensive Jihad.

But even if we suppose that the permission of Jihad has to be announced by a government, even then our Jihad would be legitimate because its verdict was passed during the Islamic Emirate led by Amir-ul-momineen Mullah Muhammad Omar Mujahid. For that reason, before American invasion on 21 September 2001, one thousand and five hundred scholars of the world said that if the Americans were to attack Afghanistan then Jihad against them would become obligatory. At the time of this verdict 95% land of Afghanistan was under the control of the Islamic Emirate recognized by multiple countries. So this issue is clear as broad day light that because of the retreats from the capital and other big cities of the country do not nullify the Shariah based Islamic government. Therefore as the Islamic Emirate was an Islamic state and government, it is still an Islamic government and state which controls more areas of Afghanistan as compared to the Americans and their stooge Administration.

Therefore all the arguments are irrational and baseless according to Shariah for above even. Furthermore, they only blame Mujahideen and do not utter a single word against corrupt governments, invaders nor consider their open brutal aggression as illegitimate hence it clearly shows their service of invaders. Therefore, we want to tell the religious scholars that they should fear Allah in this world and the Hereafter about this sensitive issue of considering the rightful Jihad as illegitimate.

They should know that America is the biggest tyrant of this time which has usurped the rights of Muslims in every corner of the world. They have occupied Baitul Muqqadas, the first Qibla of Muslims and are oppressing Muslims everywhere. You know that the Mujahideen of Afghanistan are not the enemy with stones and pellets like those of Palestine rather they are fighting against the enemy with weapons seized from Americans and their allies as a spoils of war. They are giving crushing blows to Americans with their own weapons and every day, you are witnessing victories of the Mujahideen. Americans themselves admit that more than 2500 soldiers have been killed in Afghanistan and thousands have been injured and are suffering from mental disorders. So on the basis of Islamic law it is impermissible for Muslims especially religious scholars to come to the aid and rescue of the tyrant and wounded dragon trapped in Afghanistan. Because helping the American tyrant is a grave sin and a deviation from Islam, May Allah, the Almighty protect our religious scholars from it.

To end, once again we respectfully urge the religious scholars of Afghanistan and the Muslim world to cooperate and help the Muslim nation and Mujahideen instead of assisting and participating in their aggression.

conferences of the secret service of the enemy so that Allah the Almighty thwarts the plot and reinstates the dignity and independence of Muslim nation.

And this is an easy task for Allah, the Almighty.
