Message of Ameer Ansar Ghazwat Ul Hind Haroon Abbas to the Mujahideen of Kashmir • July 07, 2019

The flag bearers of tawheed in Kashmir and subcontinent- my dear brother, honourable elders, frontline guard of stone pelters and rank and file of mujahideen brothers of war against idolaters, may Allah's mercy and blessings be upon you all.

My dear mujahideen brothers who have advanced to the field of Jihad only for Allah's will and establishment of his law, who are there to sacrifice their lives for Allah and who have chosen this path full of thornes only for La Ilaha Illallah Muhammad ur Rasool Allah. My message is for all those mujahideen who believe in Allah's promises, who believe our life and death should purely be for Allah.

In this current time there are two big trials in front of us. First is how we may strengthen our Jihad and second is to protect our Jihad from conspiracies. Mujahideen brother, may Allah in these dark times give you understanding of Deen and ability to walk upon it! Aameen ya rab al aalameen

Somedays back an unfortunate incident took place in Bijbehara which has filled our heart with sadness. If even today any organization in field thinks that by shedding blood and using force they'll maintain their supremacy then it is death of this Jihad! Such an incident is not acceptable in any sense. In this regard it becomes important to sort it out as per Shariah. And if the charge is proved right then the ruling of Shariah is either Qisas or paying diyah. And if anyone walks on the path of the khawarij then Shariah ruling is to fight against them only when they initiate the war. Mujahideen should understand that our every action should be as per the Shariah. And our hatred and love should only be for the sake of Allah only. This is the crowning point which marks the difference between a Mujahid and a gunman.

This is also important to understand that the first right upon the weapon is of the Mujahid who carries it. If a brother wants to join some other group then it is only his right on his weapon. Snatching weapon from any companion only because he has joined some other tandheem is a sign of nifaq (hypocrisy).

I want to clear one more important point in front of all that few day after martyrdom of Zakir Musa Rahimahullah , may Allah bestow blessings on him, an agency from

Pakistan reached out to us. In their message they offered a deal of weapons on some conditions. The first condition was that without permission from the agency Ansar wont do any action. Second one was no action would be big and impactful. Seems like the reason for sending down such an offer was the false notion of these agencies that after martyrdom of Ameer Zakir Musa Rahimahullah they can make Ansar puppet of Pakistan, serving to their whims. Hearing these conditions its dejects my heart to see how enslaved and weak our Jihad has been made.

My mujahid brothers, if our Jihad is weak then we are the ones responsible. If our Jihad is slave that is because we have accepted this slavery. I fear how we may answer Allah taa'la on the day of Judgement for have enslaved our Jihad serving notions of some Nation and had no faith in any promise of Allah. My fellow Mujahideen, the ayyah that I recited at the start is from Surah Asr where Allah, the Creater of the Universe, keeping time as witness says " no doubt all men are in loss". Imam Shafi rahimahullah says about this Surah that if a person understands it it is enough for him. And by the end of the Surah in last ayyah Allah taa'la tells us the way for victory and says those are not in loss who accept Emaan, do righteous deeds, guide each other to Haqq and guide each other over Sabr. Oh my mujahideen fellows the mujahideen of Ansar have always stood up to it and guided towards Haqq. This is what I exhort, what before me Ameer Zakir Musa rahimahullah had, what shaheed Soliha Rehan Khan, Abu Hammas, Abu Ubaidah brother did.

Dear Mujahid brothers our Jihad is a never ending Ibadah. And like every worship in this one as well it is vital to check our Niyyah (intention), Amal (Action) and our Qibla (direction) is right.

Today we are on a point where if we stay silent we wont just be responsible for end of this Jihad but also will turn to be its culprits. Our mission should be to keep this Jihad firm. When the conspiracy is to end Jihad and looking towards the interests of the Country it becomes something unapprovable.

When theplot is to stop you and you are given weapon only to die then being a silent spectator is a crime! Do you not wonder when you have the power, you have weapon still you are barred for months from carrying attacks!

Keeping this delicate stage in mind I present a proposal in front of you. The plan is to unite on three such terms which no one should have problem with.

First point: to strive purely only to establish Allah's Law on Allah's Land.

Second point: with regard to military operations all decisions should be taken by commanders in occupied Kashmir and these decisions would be taken only in interest of Jihad and considering ground realities.

Third point: the interests of Jihad should be given priority over organisational and personal interests and this Jihad should not be allowed to be exploited by any country or agency.

Now if you all are agree upon these points then a Shura would be set up where two mujahideen would represent each tandheem respectively. Military operation / strategy decisions taken after thorough discussion would be applicable on all. Allah willing this process will benefit Jihad e Kashmir with new hope and give it a new life.

Regarding this proposal if any brother has any question or suggestion he can contact any mujahid of Ansar who can carry forward your message to the leadership.

May Allah azzawajal accept our ibbadah and make us work relentlessly for Islam.
Aameen

And all of our praises are for Allah

Asalamualaikum

Ameer Ansar Gazwatul Hind

Haroon Abbas Hafizahullah
